PRESIDENT'S MESSAGE

This year will mark the thirty-sixth fair operated by the Saskatoon Industrial Exhibition Limited. From very humble beginnings the Exhibition has grown until today it ranks among the best staged anywhere in Canada. Centred as it is in a large farming area, its livestock classes attract the very best the West produces.

Because last year's Fair was quite successful financially, the directors decided to pass on to those who help put on the show a generous share of the profit made by increasing the prize money for livestock classes this year by over sixty percent. This increased prize money will be an inducement for prairie livestock men to show, and should also attract livestock entries from other parts of Canada and from the United States. Recognizing that an Agricultural Exhibition should be educational, it has been decided to continue this year the judging ring demonstrations in the case of livestock which proved such popular features last year.

Those interested in horse races will be glad to know that increased purse money, improved track conditions and new stabling accommodation promise to bring to Saskatoon this year the cream of the thoroughbreds racing in Western Canada and in the Western States. The six-day race meet, it is anticipated, will attract a record crowd.

An Exhibition would not be an Exhibition without the Midway with its shows and rides, and without the grandstand attractions. This year's Fair will feature the very best attainable in this class of entertainment. In addition, there will be the Baseball Tournament, the Travellers' Parade, Bands and Fireworks.

Machinery exhibits, missing during the war years, will be back with a great display. There will also be industrial exhibits featuring the very newest in industrial endeavor. There will be Art, School, Homecraft and Government exhibits. All in all, the week of the Saskatoon Exhibition—July 21st - 26th—should provide those fortunate enough to be able to attend with a little of everything.

I cordially invite you to visit our Fair. Make the week a holiday. Bring your family. We shall guarantee a week of education, recreation and entertainment.

C. T. GOODING.

Said protest shall state plainly the cause of the complaint or appeal and shall be filed with the Secretary the same day as the decision complained of is made. Such protest shall be dealt with

by the Committee in charge of the Department in which protest is made as they may deem best, and their decision shall be final. In the event of the Committee being unable to come to a decision the protest shall be dealt with by the full Board of Directors.

32. **IN THE FIGHT
FOR** *Stability*
—Deliveries
Count!

The pattern for agricultural policy in the years ahead is shaping itself now. The farmer knows that if he is to have stability there must be an end to speculative trading on the Winnipeg Grain Exchange. He also knows that powerful interests are fighting for a return to the open market.

In the fight for stability, deliveries to Pool Elevators will count! There is no better way for members to show their full support of Pool policies than by delivering their grain through their own elevators. Every bushel delivered to a Pool elevator strengthens the farmer's chance for security and stability in the future.

This **SYMBOL** *Means*
**International
Harvester**

It means more from the good earth. It means farm tractors, farm machines and improved methods that help conserve the vital soil and produce bigger and better crops with less labor.

It means motor trucks to transport raw and finished commodities . . . industrial tractors to help build airports, power dams, highways, homes, factories and commercial buildings. It means engines to turn shafts and wheels—refrigeration to protect and conserve food.

Above all, the **IH** symbol means this: An organization that builds long life, efficiency, economy, and freedom from toil into its products, that each may contribute to better living for us all.

Memo

*The Globe Trade Mark...
Symbol of Dependability*

TO livestock breeders and poultrymen, Globe dependability means extra profits. Safeguard the health of your animals and poultry, build their resistance against disease, and ensure marketing in prime condition by using Globe Animal Health Products.

Globe Laboratories produces more than 300 Serums, Vaccines, Bacterins and Veterinary Medical Specialties. That's important to you, Mr. Stockman, because Globe makes it easy for you to secure all your requirements through its "Friendly Globe Dealer Organization"

*If you are missing out on those extra profits,
Then Specify "Globe"*
